### NOTE:

- “OTH” codes are those operations that do not fit within a specific NHSN Operative Procedure Code. OTH codes are not used in NHSN.
- “NO” is a Non-operative procedure. It is not used in NHSN
- Additionally, the ICD-9-CM procedure code 39.73 has been changed from OTH to NO.

Language changes below have no impact on the codes. Changes are noted . Highlighted words are additions to the code description and ~~strikethroughs~~ are deletions.

00.8	OTH	Other knee and hip procedures
